OUR PRODUCTS

BARCODE LABELS & THERMAL TRANSFER RIBBONS

A · BARCODE LABELS

Direct Thermal Labels

Heat-sensitive labels printed without a ribbon.

Typical use: shipping, dispatch and short-term identification.

Thermal Transfer Labels

Printed with a ribbon for longer-lasting, durable prints.

Typical use: product, asset and inventory labels.

White & Silver PET Labels

Synthetic labels for applications needing more durability than paper.

Typical use: rating plates and product identification.

Non-Tearable Labels

Tamper-resistant labels that resist tearing off.

Typical use: security and traceability labelling.

Custom-Size Barcode Labels

Sizes and roll configurations discussed around your requirement, where feasible.

Product ID & Packaging Labels

Labels for carton marking, packing and dispatch, where available.

B · THERMAL TRANSFER RIBBONS

Wax Ribbons

Commonly used for general-purpose printing on paper labels.

Wax-Resin Ribbons

Often selected for improved durability on suitable label materials.

Resin Ribbons

Commonly selected for demanding applications and compatible synthetic labels.

LABEL MATERIAL	ADHESIVE	PRINTER	ENVIRONMENT
Paper or synthetic face stock	Surface and temperature needs	Model and print method	Handling, storage, exposure

Ribbon selection should match the label material and printing requirements. Share your application and we will help match the product.

PRINTERS & APPLICATIONS

PRINTERS & INDUSTRIAL LABELING SOLUTIONS

We offer Dcode and TSC barcode label printers. Model and specification details are shared on enquiry, based on your label size, volume and application.

BRAND

Dcode Barcode Label Printers

- Barcode label printing for business use
- Model recommendation based on label size and volume
- Use with matching labels and ribbons

BRAND

TSC Barcode Label Printers

- Barcode label printing for business use
- Model recommendation based on label size and volume
- Use with matching labels and ribbons

INDUSTRIES WE SERVE

Where barcode labels add value

Automotive & Auto Components
Part identification and batch traceability through the line.

Engineering & Industrial
Labels for components, assemblies and stores control.

Electronics & Electrical
Serial and product identification for tracking and dispatch.

Pharmaceuticals & Healthcare
Clear product and batch identification for stock control.

Food & FMCG
Product, packing and dispatch labels for fast-moving goods.

Logistics & Warehousing
Location, pallet and shipment labels for accurate stock handling.

E-commerce & Distribution
Order and parcel labels that speed up picking and dispatch.

Retail & Packaging
Item and carton labels that support stock checks and billing.

Labels support your inventory and dispatch workflow; they are not a complete inventory-management system.
